James L. Ward, CA/OCS/EMR

John Sullivan and Mark Pearlman

L. Craig Johnston, ARA/CEN

Given the resemblance of John Sullivan to Mark Pearlman, the coincidences of both being guests of the Sheraton Hotel in San Salvador at same time and John's disappearance only days before Mark's murder, I do not believe we can rule out the possibility of a connection between the two cases. I understand several persons will be given a polygraph test in connection with the AIFLD case, and I would appreciate a series of questions relating to John Sullivan's disappearance on or about December 28, 1980 from the San Salvador Sheraton being included in the examination. We will be more than pleased to brief the polygraph expert on the Sullivan case.
